

FRANKFURT | FULL-TIME EMPLOYEE | PROFESSIONAL/EXPERIENCED

Google Business Analyst (w/m/d)

The TMS Group, headquartered in Frankfurt, is one of the leading trade marketing agencies in Germany. Our main focus is our customers, whom we support day by day in all areas of **classic field sales and marketing**.

In addition to our extensive network of dedicated **employees** and our digitalized **sales processes**, we focus on speed, flexibility, and utmost **service** as our core value **proposition**.

We are looking for an experienced **Business Analyst (m/f/d) to support our internal Google project team in Frankfurt**.

Benefits

- A permanent **employment contract**, attractive remuneration, additional vacation days, employee benefits, multiple team events, **flexible working** hours, no weekend work
- A **secure workplace** even in times of Covid-19
- Excellent **IT equipment for remote work within a hybrid model**
- A highly motivated team with a strong team spirit that wants to achieve great things together
- A corporate culture that you can shape, and that enables you to grow and advance as part of it

- A structured **onboarding process** for new colleagues and a personalized **buddy program** as part of the TMS culture

Responsibilities:

- Central **contact person for project management, customers, and field service** in the field of data management
- **Independent preparation of raw data** for use in standard and ad-hoc reports (via Excel, SQL, or comparable tools)
- Visualization of the collected data
- Creation of various **internal and external presentations** in PowerPoint or other comparable tools
- **Provision of solutions and data-based recommendations** for future actions
- Continuous **development and automation** of existing reports
- Documentation of requirements for the ongoing development of an existing dashboard, as well as maintenance of the master database

Must-Haves:

- Completed studies (preferably in business administration/business informatics/computer science) or comparable training with focus on computer science and process optimization is required
- At least **2 years of practical experience** in the field of data evaluation and analysis of complex data sets, preferably for customers in the consumer electronics industry
- Ability to answer questions based on credible data, and use of Excel not only limited to the application of basic arithmetic operations
- Knowledge of BI tools and visualization tools (Tableau, Power BI or QlikView), as well as of (SQL) databases is an advantage
- Strong **communication skills** (German and English B2- C1), dedication and commitment, as well as a **hands-on business mentality** set you apart
- You are eager to develop ideas as part of a team while being confident to implement them independently
